

# C42 TURIN (Spacesaver) COT

## HARDWARE INVENTORY (some parts are already installed in the cot)

## PARTS LIST\*

\*Not shown to scale

# INSTRUCTIONS FOR COT ASSEMBLY

Read and follow the manufacturers assembly instructions in detail to ensure the safety features of the cot are not compromised. It is recommended that the product be assembled by two people.

Ensure your chosen location for the cot is a reasonable distance from curtains, blinds, heaters, and power points. Always keep medication, string, elastic, small toys or small items such as money out of reach from any position in the cot.

Before assembling the cot ensure you have a clear area on carpet or a thick blanket or rug. Never assemble on a hard surface.

## STEP 1 ASSEMBLE FIXED SIDE TO ENDS

Assemble fixed side between the two ends using four 70mm bolts (do not tighten bolts at this stage).

## STEP 2 ASSEMBLE BASE

Ensure four insert nuts in top of base rail have screw driver slot parallel to base rail. Choose high or low position for mattress base and assemble between two ends with eight 70mm bolts. To avoid finger entrapments the remaining base holes should be plugged with eight cap nuts and 25mm bolts.

## STEP 3 ASSEMBLE DROP SIDE

Screw four guide pins into ends firmly. Important, ensure the badges on the drop side are facing out. Assemble drop side by aligning the two access holes in the built in runner with the guide pins on one end. Now repeat on other end. Lift drop side up until it clicks into the locked position. Fully screw in locking bolts. Tighten all bolts (do not over tighten).

## ADJUSTABLE BASE

Remove drop side by reversing step 3 then adjust base to the desired level. Plug unused base holes with 25mm bolts and cap nuts. Replace the drop side and tighten all bolts (do not over tighten).

## DAYBED CONVERSION

Remove drop side by reversing step 3 then adjust base to the lower level. Remove drop side guide pins and plug unused base holes with 25mm bolts and cap nuts.

## JUNIOR BED CONVERSION

Remove the drop side by reversing step 3 then adjust base to the lower level. Remove fixed side. Remove drop side pins and plug unused base holes with 25mm bolts and cap nuts.

# OPERATION

To lower drop side, lift from centre of top rail, hold side in that position while using your leg to push inward on centre of bottom rail. Then allow drop side to slide gently down.

# MAINTENANCE

Check your cot regularly. Retighten all bolts. For after sales service contact Grotime Service Australia on 1300 799 912.

# RECOMMENDED MATTRESS SIZE

This cot has been manufactured for use with a mattress which measures 630mm in width and 1000mm in length and 100mm in thickness. The width and length are specified because it is important that the gaps between the mattress and the sides and ends of the cot will not exceed 40mm. This is to minimise the risk of the child's limb becoming caught in the gap. The thickness of the mattress has been specified to ensure that the depth of the cot is greater than 500mm with the mattress base in the lowest position to minimise the risk of a child climbing or falling out of the cot.

# WARRANTY

GROTIME NURSERY FURNITURE warrants that this product is free of defects in material and workmanship of a structural nature. This warranty is limited to making good of replacing to the original purchaser any part or parts that appear, upon inspection by the manufacturer at his works, to be defective in material or workmanship. This warranty shall apply for a period of 12 months from the date of purchase and only applies to products with a serial number which must be quoted.

This warranty does not obligate GROTIME to bear transportation costs incurred in the repair or replacement of any defective parts and excludes any superficial scratches, dents, scrapes or blemishes to paint work or timber surfaces.

In these conditions "non-excludable conditions and/or warranties" means conditions or warranties the exclusion of which would render any or all of these conditions void or voidable or which would render GROTIME liable to penalty or which be the terms of any statute or subordinate legislation may not be excluded, modified or amended and "excludable conditions and/or warranties" has a corresponding meaning.

To the extent (if any) that non-excludable conditions and/or warranties are or will be implied in relation to the supply by GROTIME of particular goods or services by any statute or subordinate legislation, these conditions shall not be deemed in any way to exclude, modify or amend or attempt to exclude, modify or amend those conditions and warranties which conditions and warranties shall apply to the supply of such particular goods and services. All other excludable conditions and/or warranties which might otherwise be implied by the general or statutory Law are hereby excluded.

## WARNING

**TO PREVENT FALLS, THE MATTRESS BASE OF THIS COT SHOULD BE ADJUSTED TO THE LOWEST POSITION BEFORE CHILD CAN SIT UP.**

## WARNING

Ensure your chosen location for the cot is a reasonable distance from curtains, blinds, heaters, and power points. Always keep medication, string, elastic, small toys or small items such as money out of reach from any position in the cot.

Before assembling the cot ensure you have a clear area on carpet or a thick blanket or rug. Never assemble on a hard surface.
